

Dongle update

Attention: If you have sealed your software care contract with elusoft GmbH directly, you are entitled to update your software to the newest version (please see the instruction attached).

Otherwise please contact your local branch to find out about available updates.

Plug in your dongle and follow the steps:

Option A – without eluCad

1. Click right mouse on the desktop and go to **NEW | WIBU CONTROL FILE**
2. Mark the top row in the dialog box and click **CREATE**.
3. Click **OK**- a new dialog box will appear, confirming that your firm code was saved successfully.
4. A new **MyCmDongle.WibuCmRaC** file is saved on your computer desktop. Send the file to lizenz@elusoft.de

Option B – with eluCad

1. Open eluCad and go to **HELP | SUPPORT | DONGLE | CREATE CONTEXT**.
2. A new window will open. Select a folder in which the **CONTEXT FILE** should be saved and click **OK**.
3. You will see a new window with a comment : **The Dongle-Context was successfully saved**.
4. Send the file with the following name **#YourDongleNo.WibuCmRaC** to lizenz@elusoft.de

Installation for options A & B:

1. Your dongle update request will be processed as soon as possible. As soon as it is ready, you will receive an updated context file to your **E-MAIL ADDRESS**.
2. Please make sure the dongle is plugged in to your PC.
3. Double click on your **Contextupdate File**.
